

Bear Grylls endorsement of new Eco Lodges at Lodge Hill Centre

The personal development of young people no matter what their background, circumstances or abilities, combined with an understanding of how they can contribute towards the saving of our planet are amongst the greatest passions in my life.

I recently heard about the commissioning of two specially designed Eco Lodges at the Lodge Hill Centre which aim to meet and mirror these twin passions and objectives.

I am sure those staying in the lodges will have great fun building their confidence and self esteem whilst taking part in the many activities which are set in 32 acres of beautiful woodland on the edge of the South Downs National Park.

I wish Lodge Hill continued success in enabling young people to achieve their full potential and I am sure the Eco Lodges will contribute to their understanding of our environment.
